The good: The HTC Wildfire features a compact and sturdy design. The Android 2.1 smartphone has a very affordable price tag and offers a 5-megapixel camera and full wireless options.

The bad: The Wildfire has a small, lower-resolution screen. The smartphone can be a bit sluggish.

The bottom line: For Alltel customers on a budget, the HTC Wildfire is a very affordable and decently featured Android phone, but it comes at the cost of screen quality and processor speed.

["Excellent phone but with some serious let downs"](#) on February 17, 2011 by [mark5372](#) (1 review)

Pros: Android takes a bit of getting used to after Nokia. But wow once you are over that hurdle it's fantastic. Very well made phone. Crystal clear call quality, loud ring tones, superior antenna.

Cons: Umm some nasty ones. On the phones we have in Aus there is a ring delay problem. If you call

the phone it rings about 2 or 3 times from the calling phone before the Wildfire actually rings. Nasty when combined with the bizarre slider bar to answer.

Summary: Excellent phone let down by some fundamental flaws. Poor battery life but not insurmountable. You must download and use ATK otherwise every single app on the phone runs at once and you can't "exit out" out of them. The 2 to 3 second ring delay caused me to revert ... Expand full review

["Speedy with great features! Perfect repl for Treo 755p"](#) on February 17, 2011 by [easyrider204](#) ([1 review](#))

Pros: Seamless integration with facebook, gmail, google talk. Setup very quick. Android touchscreen is an easy interface to learn. Battery life not an issue if default sync timing changed. It is set for every 15 minutes out of box. Need to turn down.

Cons: Skimpy accessories out of box. Silly to buy own car charger. Sync option is cloud only vs. Palm Treo desktop sync. Like to see someone offer app to desktop sync via bluetooth or usb. Watch free applications from google market. Take private info!

Summary: Get it now.

Updated on Dec 24, 2010

this review was based on HTC Desire from Alltel, not Wildfire. Unfortunately, there wasn't an entry for HTC Desire from Alltel just from USCellular.

["LOVE it! But stay close to a plug in."](#) on February 17, 2011 by [WillDoDa](#) ([1 review](#))

Pros: Android, Easy to use, very intuitive. Easy Set up. 5.0 MP camera. Flashlight feature. Kindle downloaded for free! 3G or WiFi. Very intuitive touch screen

Cons: Battery life is horrid.

Summary: I have only had this phone 2 days but I already love it. It is easy to set up and use. I love all the apps you can download and have been playing with this phone pretty much non stop since I got it. My last phone was an LG ... Expand full review
